

## The Final Countdown – One World Government Part 3

“One day this lady was throwing a birthday party for her granddaughter, and she had gone all out man. I mean, she hired a caterer, a band, a clown. But just before the party started, two guys showed up looking for a handout.

And so feeling sorry for them the woman told them that she would give them a meal if they will help chop some wood for her. So they gratefully agreed and headed to the back of the house where the wood was.

Well, meanwhile the guests arrived, and the children were having a wonderful time. But there was a problem. The clown didn't show up.

So at this the woman was very disappointed and just when she was about to give up hope, she happened to look out the window and saw one of those guys in the backyard doing cartwheels across the lawn. In fact, she continued to watch in awe this guy swung from the tree, doing flips in midair, and leaping high in the air.

And so the lady ran outside and said to the other guy, ‘Hey, what your friend is doing is absolutely marvelous. I have never seen such a thing. Do you think your friend would consider repeating this performance for the children for \$50!’

And so Al says, ‘I dunno. Let me ask him. HEY KENNY! FOR \$50, WOULD YOU CHOP OFF ANOTHER TOE?’”

Didn't see that one coming did you? Yeah, join the crowd! Neither did Jeanette when she let Al & Kenny through the gate that day. Last time she does that! But seriously folks, how many of you guys would say that Jeanette was clueless about Kenny's paint there? She had no idea about what was really taking place, did she? Not at all! But that's right folks, believe it or not, she's not alone. Did you know the Bible says one day the whole

planet is going to be clueless about some serious pain? They think entering the Antichrist's kingdom is going to be a great party, when in reality, it's their greatest nightmare! And that all begins at the rapture of the Church! And folks, the reason why it's going to be such a **painful time** is because for those who refuse to accept Jesus Christ as their Personal Lord and Savior they'll be catapulted into the 7-year Tribulation and its not a joke! It's an outpouring of God's wrath on a wicked and rebellious planet. In fact Jesus said in **Matthew 24** it's going to be a "time of greater horror than anything the world has ever seen or will ever see again. And that "unless that time of calamity is shortened, the entire human race will be destroyed." But praise God, God's not only a God of wrath, He's a God of love as well. And **because He loves you and I**, He's given us many warning signs to show us when the Tribulation was near and when Jesus Christ's 2<sup>nd</sup> Coming was rapidly approaching.

Therefore, in order to keep you and I here at Sunrise from experiencing the ultimate bad day of being left behind, even worse than apparently Al & Kenny showing up at your next birthday party, we're going to continue in our series **The Final Countdown**. And so far we've already seen how the **#10** sign on **The Final Countdown** was **The Jewish People**. The **#9** sign was **Modern Technology**. The **#8** sign was **Worldwide**

**Upheaval.** The #7 sign was **The Rise of Falsehood.** The #6 sign was **The Rise of Wickedness.** The #5 sign was **The Rise of Apostasy.** The #4 sign was **The Rise of A One World Religion.** And the last two times we saw how the #3 sign was the Rise of **A One World Government.** And what we saw there was that God lovingly foretold you and I that when we see **all the world's governments** on the planet coming together as one, which is happening right now today all over the world, and we saw that with the **Chronological** proof, the **Administration** proof, the **Quotation** proof, and **last time** with the **Tactical** proof where as we saw the Antichrist is going to use some pretty evil deceptive **tactics** to dupe the whole world to go along with this One World Government. As we saw last week, it's called **fear** and **manipulation.** He creates a crisis to get us to go along with this One World Government. Why? Because he knows we are more at to surrender our freedoms in a time of fear than in a time of peace! And that's exactly what the leaders around the world are doing today, which means guess, what? We are living in the Last Days!

But that's still not all. The **6<sup>th</sup> proof** that we know really are headed for a One World Government is what I call the **Control Proof.** You see, the Bible is clear folks. We're not just headed towards an evil deceptive Antichrist's kingdom, but that kingdom is going to be one about absolute

total control! I mean, everything! But don't take my word for it. Let's listen to God's.

**Revelation 13:11-18** “Then I saw another beast, coming out of the earth. He had two horns like a lamb, but he spoke like a dragon. He exercised all the authority of the first beast on his behalf, and made the earth and its inhabitants worship the first beast, whose fatal wound had been healed. And he performed great and miraculous signs, even causing fire to come down from heaven to earth in full view of men. Because of the signs he was given power to do on behalf of the first beast, he deceived the inhabitants of the earth.

He ordered them to set up an image in honor of the beast who was wounded by the sword and yet lived. He was given power to give breath to the image of the first beast, so that it could speak and cause all who refused to worship the image to be killed. He also forced everyone, small and great, rich and poor, free and slave, to receive a mark on his right hand or on his forehead, so that no one could buy or sell unless he had the mark, which is the name of the beast or the number of his name. This calls for wisdom. If anyone has insight, let him calculate the number of the beast, for it is man's number. His number is 666.”

Now folks, according to our text, the Bible clearly says that the False Prophet in the Last Days is not only going to dupe the whole world into **worshipping** the Antichrist, or the beast, but he's what? He's going to **make** them do it, right? He **orders** them! In fact, so much so, if you don't worship the antichrist, you're going to what? You're going to **die**! You're going to be **killed**, right? But he still goes on. He then says if you don't take this **mark** of the Antichrist, then what's going to happen to you? You're going to be **forced** into doing it, right? You won't be able to **buy** or **sell** anything anywhere on the whole planet! And how many of you guys would say, “Gee,

that doesn't sound like a very good time?" Yeah, slightly! No wonder Jesus said in Matthew 24 it's going to be the **worst** time in the history of mankind!

But here's the point. The Bible clearly says this is all happening on a **global scale** which means in order for this to happen, for the Antichrist and the False Prophet to **make** and **force** and **order** people to do what they want them to do, you have to have, some **serious control** over just about everything on the whole planet, right? Well folks, believe it or not, that time is **now**! Little by little, while we've been asleep at the wheel, they've been grabbing total control of the planet to **force us** to go along with this!

And the **1<sup>st</sup> control mechanism** they've already put into place to **FORCE US** into going along with this One World Government is our **Food Supply**. You see, you might be out there thinking, "Well hey man, there's no way they're going to get me! I'm not going to go along with this One World Government! I'm just going to store up my own food supply and take care of my own basic needs and run and hide out in the hills! They can't get me! Ha! Ha! Ha! I'm free!" Really? Not if they control your **food supply**!

And folks, that's exactly what the Bible says the Antichrist is going to do in the Last Days!

**Revelation 6:5-6** "When the Lamb opened the third seal, I heard the third living creature say, "Come!" I looked, and there before me was a black horse! Its rider was holding a pair of scales in his hand. Then I heard what sounded like a voice among the four living creatures, saying, "A quart of

wheat for a day's wages, and three quarts of barley for a day's wages, and do not damage the oil and the wine!"

And folks, the last time we were here, if you recall, this text is dealing with the famine conditions during the first half of the 7-year Tribulation.

And what it tells us is that the famine conditions are so bad at that time, that the whole world is actually going to be on some sort of **Global food distribution program** just to stay alive, right? What'd it say? One day's work you could get a quart of **wheat** for yourself, right? Or you could opt out for that for three quarts of **barley**, a less nutritional meal, literally animal feed as we saw last time, to feed you and your family of two.

Now, here's the point. That's exactly what the same people who are pushing for this One World Government are saying we do **right now!** Get a total control of our global food supply! In fact, they're already doing it! And once again, they're using fear and manipulation to get the job done, to get us to go along with it! It's the same tactic we saw last week! I'm mean, haven't you heard? We have a horrible **food crisis** on our hands! AHHH! We've got salmonella outbreaks in spinach, and tomatoes and even our peanut butter! No! Not the peanut butter! Yes, even the peanut butter! Think of the kids! What are they going to do? How will they survive? And then there's that E Coli thing, and that mad cow disease, and even that Hoof and Mouth disease! Oh no! What will we do? What will we do? Hey, I know, we just

need some sort of global food entity, some global control system to control our global food supply, to keep it safe for us, and everything will be just fine....yeah right! And for those of you who don't think this is a manufactured **crisis** to grab control of our food supply, here's what all these fear tactics and scares are leading to.

Just recently, the Obama administration has created a "food safety" group to help "protect" the U.S. food supply. Mr. Obama said food-borne illness outbreaks have increased in recent years, including major salmonella outbreaks involving spinach, peppers, tomatoes, and even peanuts. He said, "We are not just designing laws that will keep the American people safe, but enforcing them."

In fact, if you don't follow these new food laws, you might end up losing your property. And that's because there's a new House Resolution called the "Food Safety Modernization Act" that calls for the creation of a Food Safety Administration to "allow the government to regulate food production at all levels – and even mandates property seizure, fines of up to \$1 million dollars per offense and criminal prosecution for those who fail to comply to regulations.

Another bill that has people worried is the Senate Bill 425 or "Food Safety and Tracking Improvement Act" that's backed by Monsanto, Archer Daniels Midland, and Tyson. They say, "We must ensure that the federal government has the ability and authority to protect the public, given the global nature of the food supply." The bill calls for the establishment of a national database of our food supply with electronic records to identify, "where the food was grown, prepared, handled, manufactured, processed, distributed, shipped, warehoused, imported, and conveyed to ensure the safety of the food."

In fact, here's what one of the guys pushing this bill said, "If the postal service can track a package from my office in Washington to my office in Cincinnati, we should be able to do the same for food products. Families that are struggling with the high cost of groceries should not also have to worry about the safety of their food. This legislation gives the government the

resources it needs to protect the public.” Or to control the public and their food supply?

And lest you think it’s not going to lead to that, “A new law proposed by the European Commission would make it illegal to “grow, reproduce or trade” any vegetable seeds that have not been “tested, approved and accepted” by a new EU bureaucracy named the “EU Plant Variety Agency.”

It’s called the *Plant Reproductive Material Law*, and it attempts to put the government in charge of virtually all plants and seeds. Home gardeners who grow their own plants from non-regulated seeds would be considered criminals under this law. (Gee, looks like that Seed Vault by Bill Gates might “really” have an alternative motive after all...)

And then just in case you still tried to grow and produce your own food, “Recently a SWAT team with semi-automatic rifles entered the private home of a food cooperative in LaGrange, Ohio, where they then herded the family onto the couches in the living room, and kept guns trained on parents, children, infants and toddlers, from approximately 11 AM to 8 PM. Agents then began rifling through all of the family’s possessions, many items were taken, the family was not permitted a phone call, and they were not told what crime they were being charged with. They were not read their rights. Over ten thousand dollars worth of food was taken, including the family’s personal stock of food for the coming year. All of their computers, and all of their cell phones were taken, as well as phone and contact records. The food cooperative was virtually shut down. There was no rational explanation, nor justification, for this extreme violation of Constitutional rights.”

Wow! Interesting. So much for storing up your own food supply! But that’s not all. Just to make sure we go along with this total control of our food supply, we have another **crisis** on our hands. It’s that dreaded **obesity crisis**! That’s right, we have to let them control our food because there’s people out there who can’t control it right! For the sake of themselves, and

the cost of the health care system, we have got to have somebody control our food! Don't believe me? Here's what it's leading to. Fat Report Cards!

A new forecast on obesity in America has health experts fearing a dramatic jump in health care costs if nothing is done to bring it under control. The projection recently released warns the 42% of Americans may end up obese by 2030. And that's why some schools are now giving out "fat" report cards to students to help "curb" this "bad" behavior.

### Child Obesity:

For some time now health officials in this country have been warning of a growing epidemic of childhood obesity. Many schools have responded, taking steps to promote exercise and healthier eating habits.

Well now in Denver they're going even farther, sending home a new kind of report card. Here's NBC's George Louis.

Louis: Ten year old Isabelle Martinez broke into tears when she read the notice placed in her backpack and intended for her parents. School health authorities have marked her down as overweight.

Flaurette Martinez: That was the first thing she saw, she said "Mom I'm overweight. I'm fat Mom!" And it just broke my heart to hear her cry. She was just bawling.

The way this information was delivered to the family was against any of the guidelines related to privacy and health information.

In fact, a bill has already been introduced in Congress that would put the federal and state governments in the business of tracking how fat, or skinny, American children are. And in England, "food police" are secretly photographing schoolchildren's packed lunches to analyze the contents whereupon they then contact the parents and encourage them to "improve" their nutrition. And even here in America, new federal regulations are stipulating that the "new" electronic health records that Americans are supposed to have here real soon, must record not only the traditional measures of height and weight, but also the Body Mass Index, or obesity rating.

And the rationale for all this Big Brother type of behavior is not only for the well-being of the children, but for the future costs as well. They say, “If nothing is done, obesity is going to hinder efforts for health care cost containment. America could save \$549.5 billion dollars if weight-related medical expenditures were controlled and this obesity problem is likely to get much worse without a major public health intervention.”

And that’s already begun. Believe it or not, salted popcorn may soon become a federal offense! Believe it or not, the FDA is planning an assault on salt by limiting the salt intake of Americans with the excuse that it’s for the “protection” of the health of the public. The FDA would analyze the salt in spaghetti sauces, breads, and thousands of other products that make up the \$600 billion food and beverage market. The main culprits behind this effort to monitor our food supply is an outfit called the Center for Science in the Public Interest (CSPI), who is the leader among what’s called, “the food police.”

The head of CSPI is a guy named Michael Jacobson, who just happens to be a rabid Vegetarian and who is horrified by nearly anything man chooses to eat. CSPI calls for taxes on foods with fat, sugar, and sodium (called the “Twinkie Tax”). In fact, the state of New York is not only starting to “ban” certain food products under the fear of “damaging your health” but they are also calling for the implementation of an “obesity tax.”

Obesity Tax:

Reporter Steve Ference:: If you do like drinking soda...

Mickey McMullin <customer>: It’s crazy! Why would it be just a be a sugar sod?

Ference: Try this on for size. The Governor’s proposed Obesity Tax, charging 18% sales tax for sodas on top of the 8% already collected.

Anitra Stinney <customer>: Of course it takes more money out of our pockets.

Ference: Here’s the skinny on the plan. Any soda, except diet, would be taxed at the higher rate. Drinks containing less than 70% fruit juice could

also be taxed.

Christian King <store owner>: But the biggest thing is us taking the brunt of the customer irritation or frustration with more tax. We get to see it.

John O'Leary <customer>: I don't drink it, so it doesn't bother me at all.

Ference: It's not only soda, the beer tax would more than double. Malt beverages would be taxed at the higher liquor rate.

King: There's a lot for convenient store customers not to like

Ference: But many critics are wondering where the line is. Does it simply end with soda or does the taxing continue with things like cakes or even your favorite coffee?

James Calvin <NY Assoc of Convenience Store President> One of our concerns is not only about this particular proposal, but about what happens next. What's the next product may contain sugar that would be taxed at an exorbitant level?

All of that action, of course, serves only to drive up the cost of food while robbing Americans of a freedom to choose what they eat. In fact, CSPI has attacked nearly every food product on Earth, begging the question, "What's left to eat." Jacobsen suggests a sandwich of lettuce and bread - but be careful, because the bread has salt in it and the lettuce may have been sprayed with chemicals. In fact, he advises a near starvation diet of not much more than potatoes and carrots (don't over indulge in them). And he says, the American public cannot be trusted to make their own choices, so he must do it for them." Gee, what's next? They gonna feed us "wheat" and "barley"? In fact, it's getting so bad that pretty soon you might even lose your job if you smoke or eat junk food!

Smokers fired.

Katie Couric: How's this for an ultimatum at work; quit smoking or You're Fired! A year ago we told you about a Michigan medical benefits firm that canned four employees who refused to be tested for nicotine. Now a well know national company is threatening to do the same thing to workers who light up. Here's CNBC'S Diana O'Leary.

Diana Olick: On the smoke-free campus of Scott's Miracle Grow, the wellness center is packed with a lunchtime crowd.

James Hagedorn: We're trying to improve the wellness of our associates

Olick: With a 5 million dollar gym, free health screening, free counseling and a promise to most of its 5300 employees. You smoke. You're fired.

James Hagedorn : We gave them a year heads up, in stage four we have a choice, which is about sixty percent of our people. We'll give them pharmaceuticals. We'll give them counseling. We'll give them whatever they need. We'll give them and there's no expense on what we'll do to get people to quit.

Diana Olick: So what about states where this policy is illegal like New Hampshire? Well one manufacturer there, Kimball Physics says, "If you even smell like smoke, you can't come into the building" In other words, these ladies couldn't go back to work.

Some companies, such as General Mills, are charging smoker's more for health care. And one medical benefits company itself, is even going after smoker's spouses.

Woman on the street: So what's going to be next after that? People that overeat?

Olick: Perhaps, because it's corporate America, chokes on the cost of healthcare, where there's smoke, there will be firing."

Folks, I don't know about you, but it sure looks to me like all these **obesity** and **food fears** are leading to a total control of our food supply, how about you? Looks to me like somebody's deceitful plan is working like a charm! Why, the next thing you know, we won't be able to buy or sell any kind of food unless we do what they say! Where have I heard that before?

Oh yeah, that's right! That's the Antichrist's kingdom that's going to appear on the scene when you are living in the Last Days!

But that's not all. The **2<sup>nd</sup> control mechanism** they've already put into place to FORCE US into going along with a One World Government is our **Water Supply**. You see, you might be out there thinking, "Well hey man, there's no way they're going to get me! Okay, so maybe they're going to control the food supply, but I'm going to store up food **right now** and then all I need is a good steady supply of water and I'm good to go! They can't get me! Ha! Ha! Ha! I'm free!" Really? Not if they control your **water supply**! And according to the Bible, that's going to become a huge issue during the 7-year Tribulation.

**Revelation 8:6,8-11** "Then the seven angels who had the seven trumpets prepared to sound them. The second angel sounded his trumpet, and something like a huge mountain, all ablaze, was thrown into the sea. A third of the sea turned into blood, a third of the living creatures in the sea died, and a third of the ships were destroyed. The third angel sounded his trumpet, and a great star, blazing like a torch, fell from the sky on a third of the rivers and on the springs of water, the name of the star is Wormwood. A third of the waters turned bitter, and many people died from the waters that had become bitter."

Now folks, the Bible clearly says that during the 7-year Tribulation that not only does the saltwater, the sea, get judged by God, but even the fresh water gets judged by God, right? It said the springs there! And so what happened? **Many** people died as a result, right? And so this tells us whoever

controls that water supply during the 7-year Tribulation, gets to control a whole lot of people, right? Uh huh! And so guess what? That's exactly what these same people who are pushing for this One World Government is saying we do **right now!** We've got to get a total control of our global **water supply!** WHY? Because haven't you heard? We've got a serious **water crisis** on our hands! There's chemicals being dumped into our streams, there's poisons that are leaching into our water table, and there's those dreaded toxins being released into our municipal water plants. In fact, there's **drugs** in our water supply. Don't believe me? Check it out for yourself!

### CNN Drugs in Drinking Water

Elizabeth Cohen (CNN Medical Correspondent): Well the Associated Press here spent 5 months investigating this, and they looked at various municipal water supplies. Not all of them keep track of whether or not there are pharmaceuticals but the ones that do, they all had traces of various medicines. I am going to give you a list that will give you some idea of the kinds of things that they found.

For example, in Atlanta, where I am right now they found that the water contained traces of Antibiotics, blood pressure drugs and Cinnamates, cholesterol drugs, and estrogen that women sometimes take for medicinal reasons. And New York City that found trace of a seizure drug and an anti-anxiety. Now to give you the sort of the "big picture" how many drugs did they find in the drinking water? In Philadelphia they found trace amounts of 56 different drugs. In New York City they found traces of 16 drugs and in Northern N.J. traces of 13 drugs.

So, of course the next question is what about bottled water? Well I hate to sound so pessimistic here, bottled water is often repackaged tap water and

that doesn't help us much either or even if sometimes it's spring water, it could still possibly contain these trace amounts and those filters at home- they are not sensitive enough to get rid of the pharmaceuticals.

Well folks, there you have it! We've got a serious water problem. In fact, what's even more serious, is how those drugs got in there in the first place. Many would say it's just from people taking these medications and then when they go to the bathroom, they release it into the public water supply. But others would say maybe it's part of some other nefarious plan that's already been used by other nations on their populations for control purposes. Check this out.

According to an official Government report, one man testified, "While a member of the Communist Party, I attended Communist underground training schools outside the City of New York. We discussed quite thoroughly the fluoridation of water supplies and how we were using it in Russia as a tranquilizer in the prison camps.

The leaders of our Communist school felt that if it could be induced into the American water supply, it would bring about a spirit of lethargy in the nation; where it would keep the general public docile during a steady encroachment of Communism.

We also discussed the fact that keeping a store of deadly fluoride near the water reservoir would be advantageous during the time of the revolution, as it would give us opportunity to dump this poison into the water supply and either kill off the populace or threaten them with liquidation, so that they would surrender to obtain fresh water. Both the Germans and the Russians added fluoride to the drinking water of prisoners of war to make them stupid and docile."

But hey, that would never happen, would it? But folks, all I know is, all these manufactured crisis over our water supply, is leading to this. Total control. Check it out!

Believe it or not folks, right now it is “illegal” to collect rainwater in many states here in America. Don’t believe me? Here’s the actual report.

Stealing Rainwater:

Who owns the rain? Turns out, not you. You’re actually breaking the law if you try to capture rain falling onto your roof and pour it out on your flowerbed.

A prominent Utah car dealer found that out when he tried to do something good for the environment. John Oliver has the surprising story

Oliver: Rebecca Nelson captures rain water in a barrel and she pours it on her plants.

Rebecca: We can fill up a barrel in one rainstorm so it seems a waste to let it just fall onto the gravel.

Oliver: Car dealer Mark Miller pretty much wanted to do the same thing on a bigger scale. He collects rainwater on the roof of his new building and stores it in a cistern and hopes to clean cars with it in a new water efficient car wash. But without a valid water right, State officials say you can’t legally divert rainwater.

Miller: I was surprised. We thought it was our water.

Oliver: So, what about the little guy watering with rainwater at home what’ll anybody do about that violation of the law.

If she really does do that then she ought to have a water right to do it.

And lest you think this trend isn’t going to go global, right now the U.N. is seeking to control the planet’s drinking water. Right now they are pushing a program “The Blue Planet Project” and it’s part of a global movement to

promote the U.N.'s belief that "water is life" and that the world is now experiencing a global water crisis. More than 1 billion people do not have access to safe drinking water and more than 3.5 million people die each year from water-related diseases.

Therefore, they are proposing to control the planet's water supply. "We strive for water justice based on the principles that water is a human right, a public trust, and part of the global commons." It's been called, "The Mother of All Power Grabs," but oddly enough, the news media has totally ignored what should be the biggest news story of the year."

Folks, I don't know about you, but it sure looks to me like all these **water fears** are leading to a global control of our water supply, how about you? Looks to me like these fear tactics are working like a charm, how about you? I mean, the next thing you know, somebody's going to have the power to **force us** to do whatever they say...and where have I heard that before? Oh yeah, that's right! It's the Antichrist's kingdom that the Bible said would appear on the scene in the Last Days!

But that's not all. The **3<sup>rd</sup> control mechanism** they've already put into place to **FORCE US** into going with a One World Government is our **Health Supply**. You see, you might be out there thinking, "Well hey man, there's no way they're going to get me! Okay, so maybe they're going to get control the food supply and water supply, but if I store up food now and a whole bunch of water somehow, someway, they can't get me! Ha! Ha! Ha! I'm still free!" Really? Not if they control your **health supply**! You see, according to the Book of Revelation, the 7-year Tribulation is going to cause

a lot of injuries! You're going to need some serious health care! Check it out!

Now folks, maybe it's just me, but it appears you're going to need some serious health care during the 7-year Tribulation, how about you? My advice is don't go there in the first place! But as you can see, whoever controls the health care at that time, certainly controls a lot of people, right? But hey, good thing we see no signs of anyone getting control of our health care system to exert **power** and **control** over us...or do we? Folks, what in the world do you think just happened? Didn't you hear the debates? We don't have a health care problem, we have a health care **crisis**! AHHH! We have to go along with this Universal Health Care system to make it right and fair and bring this crisis under control! But what they didn't tell you was that it was a ruse to grab control of your **life** and even your **death**. Don't believe me? Let's take a look what's in there!

What most people don't realize is that part of the new health care system that was recently passed also calls for the creation of a so-called "health care military" force. Here's the actual report.

Obamacare Army:

Shepard Smith: Ah Health Care now-with the Bill now a law, Fox News is asking what next? Today, a closer look at a little known provision of the overhaul. What about what you might not have heard The Reform Law calls for the creation of a 6,000 person army, if you will. A sort of army of trained public healthcare professionals. With us now, Fox News Senior Judicial Analyst Judge Andrew Napolitano.

Napolitano: The language is intentionally vague and it's a little scary because of the military sounding words used in the creation of this group.

Smith: Well they ought to change those words.

Napolitano: Well by referring to it as a reserve corp, the training is the same as the regular corp. It gives you the impression that the President has the power to take over the National Guard from State Governors in peace time. Now under the Constituion, he can't do that. But a fair reading of this legislation would let him do it. Another way to read the legislation is these are healthcare professionals but they're going to train with the military, meaning they're going to carry sidearms.

Smith: Oh really?!? They would carry sidearms?

Napolitano: Well if they're going to train with the military, that's what the military trains with. If you look, on the debates on the floor of the Congress there's nothing about this and many other clauses in this because members of Congress didn't have the time to read it.

Smith: Does it sound well intentioned to you?

Napolitano: No. No! No it doesn't! It doesn't sound well intentioned because of the military language. The government needs physicians that has the ability to hire them. But putting them under the direct command of the President, saying you will train with the military is what is scary. Why do we need military oriented physicians if the emergency is state side.

Gee, why would you want a Health Care Military Force? Well maybe there's going to be some things in your new health care system that people are going to resist. And once you actually read that bill, that's exactly what's going to happen!

**Pgs.29,30,42:** It states that a government committee will decide what treatments you are allowed and what your overall benefits are. It mandates the rationing of health care as is being done in Canada and it gives the power of the Health Choices Commissioner to determine your health benefits. You will have no choice.

**Pgs.85,354:** It gives the government the right to ration everyone's healthcare, including Medicare recipients, basically rationing the care of every senior citizen in the United States as well as restricting the enrollment of special needs children and adults.

**Pg.167:** Any individual who is self-employed and does not have health insurance will be taxed 2.5% of income and forced to accept public health insurance. So paying for health care out of pocket will be banned from the face of the earth.

**Pgs.272,335-339:** It rations the care of cancer patients and limits the treatment choices made by patients with their doctors, based upon the patient's health and condition. This will result in the oldest, weakest and sickest patients being denied treatments simply because the statistics for success in their demographic category are poor!

**Pg.425:** It mandates "Advance Care Planning Consultation," to encourage seniors who are in poor health to be more accepting of death rather than fighting to stay alive with their loved ones, and then it provides an approved list of "end of life" resources to help "guide" seniors about the process of dying! In fact, every five years people in Medicare will have to have a required counseling session to tell them how to end their life sooner. It also recommends a method for death: "the use of artificially administered nutrition and hydration."

**Pgs.427,429:** It actually mandates a program for orders on the end of life, actually giving the government a say in how your life ends, and gives an

“Advance Care Planning Consultant” the power to order end of life plans for a patient.

**Pgs. 494-498:** It allows government to define “mental illnesses” and what services they will be allowed to be treated with.

**Pgs. 259,261,1006,1052** (Depends on which version of the Bill): It talks about, “The Secretary shall establish a national medical device registry (in this subsection referred to as the ‘registry’) to facilitate analysis of postmarket safety and outcomes data on each device that—”(A) is or has been used in or on a patient; and “(B) is a class III device; or a class II device that is implantable.”

So the question is, “What is a class II medical implant device?” Well some say it’s just strictly referring to implantable devices like pacemakers. However, it just so happens that a microchip implant is also considered a class II medical device. But don’t take my word for it. Let’s listen to the manufacturer. He admits it!

Class II Medical Device:

In medical news tonight, a chip, the size of a grain of rice could save your life. So we call on Dr. J Adler.

Adler: So what happens if you’re in a bad accident and can’t communicate with emergency workers and doctors. New microchip technology now makes it possible for the emergency room staff to find out about your medical history at the touch of the computer key. In the emergency room, a split second decision can make the difference between life and death.

John Halemka: So many emergency physicians have to operate blind. We have to make medical decisions not knowing what medicines you take or what allergies you have.

Hi I’m Dr. Halemka, we are going to check your scan today

Adler: Harvard doctor John Halemka says this Radio Frequency Identification chip may solve that problem. He had it implanted in his right upper arm. A scanner reads an identification number. Those 16 digits are then entered into a secure website where his medical history is stored. EMT

worker Brian Orsatti says the chip could help emergency workers.

Orsatti: One of the big things, is if you ever have some type of trauma patient where they come in and are unable to give you their information and/or their medical history.

Adler: Anyone can get the chip and while some patients may be concerned about privacy issues, Dr. Halemka says the benefits are clear.

Dr. Halemka: I'm a rock climber and I believe if I fall off a cliff and you find me unconscious, the comfort of being able to scan me and figure out who I am outweighs my concern for privacy.

Adler: The procedure is done with anesthesia and is relatively pain free.

Halemka: It's like putting a knitting needle under your skin.

Adler: But in this case he says getting something under your skin-is a good thing

Scott Silverman CEO of VeriChip: And it is certainly critical to the evolution of information technology in healthcare, which we all know is archaic the way healthcare is done today in emergency rooms and physicians offices. You know VeriChip has been approved by the FDA as a class II medical device.

Oh! So that's a class II medical device! Boy, have we been duped! And so if you put this together with **Pgs.58,59,195**, that states that government will have possession of all your health care records and history including your finances and you will have to have a National ID Health card and that they will be given direct access to your bank accounts and personal financial records to compel you to pay any out-of-pocket or premium costs "electronically"...

It just so happens that the microchip implant can do all of these things in one convenient implant. It can store your medical records, your personal information, including your finances, and it can even be used and is already being used around the world to make "electronic" payments, tied into your bank account.

And this is why researchers are saying, “Could it be that we are seeing the structure being laid for America to become the first nation in the world that would require every U.S. citizen to receive an implanted microchip for the purpose of controlling medical care? There are those that say the current legislation does not say this. But, the current legislation and laws surrounding the Health Care Bill are still in the process of being written.

And one still has to wonder about the comments of Joseph Biden when asking Justice John Roberts at his Confirmation Hearing: “Can a microscopic tag be implanted into a human body to track his every movement? You will rule on that, mark my words, before your tenure is over.”

And lest you think this won't go global, and I quote, “Obama Care Goes Global.” Hillary Clinton announced at the United Nations International Conference on Population and Development, “In addition to new funding, we've launched a new program that will be the centerpiece of our foreign policy, the Global Health Initiative, which commits us to spending \$63 billion over six years to improve global health.”

One man states:

“It's staggering to see the number of political leaders who profess to be Christians and yet who are the very same people who promoted this legislation that undermines their Christian belief system. The reason for this seeming contradiction is that the majority of so-called “Christian” politicians do not have a Biblical worldview. Their understanding of God's Word is superficial and often not genuine, which is a reflection of the lack of good Bible teaching in the pulpits of America.

We have entire denominations and churches who actually forbid the teaching of Bible prophecy and the Book of Revelation, which is the official policy of Communist China as well!”

Wow! Sounds to me like somebody doesn't want us to be in this study, how about you? Gee, I wonder who that might be? Folks, I don't know about you, but it sure looks to me like all these **health care fears** have

led to the total control of our health supply, how about you? Looks like all those fear tactics worked like a charm. Why, if I didn't know better, I'd say pretty soon somebody's going to show up on the scene and say, "Take this chip...or you will **die!**" Gee, where have I heard that before? Oh yeah, that's the Antichrist's kingdom that's going to appear on the scene when you are living in the Last Days!

Folks, what more does God have to do? This is not a game! This is real! God doesn't want us going into the Antichrist's kingdom, and He certainly doesn't want us to go into HELL! And so that's why, out of love, He's given us these signs of a **One World Government** to show us that the Tribulation is near, Christ's 2<sup>nd</sup> Coming is rapidly approaching. And that's why Jesus Himself said:

**Luke 21:28** "When these things begin to take place, stand up and lift up your heads, because your redemption is drawing near."

People, like it or not, we are headed for **The Final Countdown**. And so the point is this. If you're here today as a Christian, it's time to get busy! We've got to lay aside our differences and start getting busy working together saving souls by the Spirit of God! Amen?

But if you're here today and you're not a Christian, then I beg you, please, heed the signs...heed the warnings...give your life to Jesus today...because the last place you ever want to be is in the **Antichrist's**

**Kingdom**, he's going to make you take THAT CHIP and it's going to be your utter worst nightmare! Take the way out...NOW...the ONLY way out...through Jesus Christ. Call upon His Name and ask Him to forgive you of all of your sins, and escape the Wrath to come. Amen?

To find the way to God, to understand the *truth* of God's Word, and to received the gift of eternal *life*, begin by repentance and faith through a prayer like this:

“Dear God, I understand that I have broken Your Law and sinned against You. Please forgive my sins. Thank You that Jesus suffered on the cross in my place. I now place my trust in Him as My Savior and Lord. In Jesus' name I pray. Amen.”
